

# Binary code challenge

Use the grid below to make notes. Work logically and methodically to create a code that works using only zeros and ones. Your teacher will provide clues if you have tried and need some help.

My binary code					Number
					1
					2
					3
					4
					5
					6
					7
					8
					9
					10
					11
					12
					13
					14
					15
					16
					17
					18
					19
					20
					21
					22
					23
					24
					25
					26

Print and laminate for use with removable marker.
